

# Project Documentation – HTML & CSS

## Website by Ina Bala

This project is a simple personal webpage created with HTML and CSS.

It has five main pages: Home, About, CV, Gallery, and Contact.

The idea was to design a clean, pastel-style website that presents my personal information, education, and Erasmus experience in Austria.

The screenshot shows the homepage of a personal website. At the top, a dark green header bar contains the title "Welcome to My Personal Webpage" in white text. Below the title is a navigation menu with links to "Home", "About", "CV", "Gallery", and "Contact". The main content area has a light blue background. In the center, there is a circular profile picture of a young woman with long brown hair. Below the picture is a paragraph of text about the author's background and current activities.

My name is Ina Bala, and I am an Erasmus student from Albania currently studying Informatics in Austria. I am passionate about learning, creativity, and finding ways to make technology useful in everyday life. Back in my home country, I serve as the Chairperson of my Faculty Student Council, where I lead and organize various academic and social activities. People describe me as organized, empathetic, and driven to make a positive impact in everything I do. I enjoy balancing my studies, work, and personal passions while constantly aiming to grow both personally and professionally.

The home page gives a short introduction about me and includes my profile picture.

It also has a navigation menu that connects all pages of the website.

The style is soft and simple, using the same colors and fonts across all sections.

**About Me**

**Erasmus Life**

I have a wide range of interests that keep me motivated and inspired. Technology and digital innovation fascinate me, especially how they can improve people's daily lives. I enjoy photography and creating aesthetic visuals that express emotion and simplicity. Exploring new places and learning about different cultures are passions I actively pursue, especially now as an Erasmus student in Austria. Back home in Albania, I work in an optical store, which has helped me develop strong communication and customer service skills. Being the Chairperson of my Faculty Student Council allows me to practice leadership, teamwork, and organizational abilities. I am also passionate about personal well-being and health, building habits that support both body and mind. These experiences have shaped me into a confident, adaptable, and motivated individual ready to take on new challenges.

This page describes more about my interests, work, and Erasmus life.

It includes photos and text arranged in a two-column layout with round images.

Everything is centered and easy to read on any device.

**Profile Summary**

Dedicated and innovative student pursuing a degree in Business Informatics, with experience in leadership, volunteering, and creative fields. Passionate about technology, education, and social impact, with strong organizational and communication skills.

**Education**

- **Bachelor in Business Informatics** — Faculty of Economics, University "Fan S. Noli" (2023 – Present)

**Work & Leadership Experience**

- **Chairperson, Student Council** — Faculty of Economics, University "Fan S. Noli" (2023 – Present)
- **Leader, PILLAR Project** — "Crawling Down the Aisle: Breaking the Chains of Early Marriages" (2025)
- **Volunteer, Balkan Mathematics Olympiad** — Korçë, Albania (2025)
- **Volunteer, Kennedy Foundation** — Korçë, Albania (2020 – 2023)

Here I presented my studies, leadership experiences, and volunteer work.

The structure is clear and divided into short sections.

The same pastel colors are used to keep the design consistent.

## Memories & Moments

Here are some of my favorite photos — moments from my Erasmus journey, projects, and life experiences that inspire me every day.

Exploring Austria AT

Best Friends

Study Sessions

Student Council

The gallery shows moments from my Erasmus journey, student life, and travels.

Photos are arranged in a simple grid with captions under each image.

There are more than 10 pictures inside the “images” folder.
